## True SaaS Architecture

**Deploy with Ease:** No need to waste time and money on professional services. HYCU is delivered as a service with instant deployment, no maintenance and no upgrades.

**Cloud Scale Architecture:** Avoid countless hours of planning and sizing exercises of your backup infrastructure with HYCU's dynamic scalable architecture.

**Zero Backup Management:** With built-in automation such as job scheduling and backup target provisioning, customers do not have to waste any time with backup management.

## Complete Protection for Google Workspace

**Comprehensive Protection:** Instantly protect your emails, Shared Drive, My Drive, Contacts, Calendars, and Tasks..

**Aggressive RPOs for Google Workspace:** Achieve high-frequency data protection of Google Workspace assets with constant journaling that adheres to Google's best practices.

**Retain Backups Forever:** Leverage unlimited backup retention by default with customizable options for finite retention.

## Flexible Recovery for Google Workspace

**Granular email Recovery:** Recover emails, attachments, contacts, calendars, tasks, with the option for bi-directional email migration between Gmail mailboxes, M365 and HEX.

**Granular file Recovery:** Perform granular (files and folders) and full recovery of Shared Drive and My Drive (files).

**Search and Recover:** Advanced and intuitive global search and granular recovery options for email, Shared Drive and My Drive backups.

## eDiscovery & Compliance

**Detailed Monitoring:** Detailed audit trail of email backups, searches, downloads, deletion and much more, all with alerts and notifications.

**Legal and Compliance Hold:** Suspend email expiration on demand for situations like ad-hoc legal and compliance audit.

**eDiscovery across the board:** Keep constant track of email correspondence and analytics between senders and recipients.

## Security at Every Level

**End to End Encryption:** Uses military-grade AES 256-bit encryption and TLS/SSL to ensure your data is protected in transit and at rest.

**Data Protection Compliance:** HYCU for Google Workspace is compliant with many widely accepted standards, including: HIPAA, GDPR, PDPA (Singapore) and Australia Privacy Act.

**Backup Storage Compliance:** The backup target used by HYCU for Google Workspace is compliant with: SOC 1,2 and 3, ISO27001, FedRAMP, FISMA, DIACAP, DOD CSM Levels 1-5, FIPS 140-2.

## Experts to Watch Your Back

**Proactive Customer Support:** HYCU's team of data protection experts and engineers keep a constant eye on your Google Workspace backup infrastructure 24/7 to offer preventative oversight.

**Extended Support Team as Needed:** We hold ourselves to the highest standards by treating every one of our customers with professionalism, empathy and care.

**Industry-leading Net Promoter Score (NPS):** HYCU measures customer experience through NPS. Validated by a third party, HYCU's NPS is 91+, the highest among backup providers in the industry.
