

Protect your mission-critical iManage Cloud data with HYCU R-Cloud™

Ensure your data is always safe, accessible, and recoverable with the official backup and recovery solution for iManage Cloud.

Why back up your iManage Cloud data?

Your iManage Cloud data is critical to your business. Without it, you risk severe operational disruptions, customer distrust, non-compliance, and even lawsuits. Yet threats like human error, insider actions, third-party failures, automation errors, and cyberattacks can put your data at risk.

That's why backing up your iManage Cloud data isn't optional – it's essential.

HYCU R-Cloud™ is the official backup and recovery solution for iManage Cloud, that lets you continuously protect and quickly recover your iManage Cloud data, when and where you need it.

Keep your iManage Cloud data safe – and in your hands

- ✓ **Correct mistakes in minutes, not days**
Accidental deletions or missteps shouldn't slow you down. Bounce back instantly with quick, granular data recovery.
- ✓ **Take charge of your data**
With secure, off-site backups in customer-owned storage, always have a copy of your data in your control – no matter what.
- ✓ **Be compliant without compromise**
Easily comply with industry and regional regulations with flexible retention, control over residency, and reliable recoverability.
- ✓ **Simplify backup management**
Manage backups for 90+ workloads across on-prem, hybrid cloud, and SaaS apps including Microsoft 365 and DocuSign – all from a single pane of glass.

Our Strengths

Google Cloud

Industry leading data protection for Google Cloud

Gartner

Recognized as a Visionary in the Gartner Magic Quadrant for Enterprise Backup and Recovery

GIGAOM

Leader in the GigaOM Cloud Native Data Protection Report

Leading in SaaS Backup, File Recovery, DRaaS, Server Backup, and Database Backup

#1 Net Promoter Score (NPS) in Data Protection

Our partnership with HYCU adds another layer of comprehensive data protection to the mix, giving customers the confidence and peace of mind that their data is protected from every angle.

EVP Product Management

Stay in control of your iManage Cloud data with HYCU R-Cloud™

Secure, off-site backups

Keep control of your iManage Cloud data with off-site backups in a public cloud storage you own.

Instant off-site recovery

Quickly export your backup data to an off-site location if iManage's service becomes unavailable.

Backup autopilot

Automate iManage Cloud data backups with fully customizable 'set and forget' policies that run 24/7.

One-click, granular data recovery

Recover libraries, workspaces, folders, and files along with versions, metadata, and security settings.

Ransomware-proof protection

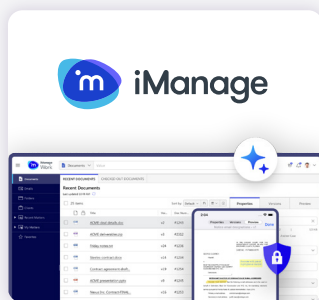

Recover from ransomware attacks with WORM-enabled immutable backup copies that you can rely on.

Built for compliance

Meet your retention, residency, and governance needs by storing and processing data where and how you need.

How it works

Flexible policy-driven
automated backups

Data exports offsite

- 1 Connect your iManage Cloud library with HYCU R-Cloud™ using secure, OAuth 2.0 based authorization
- 2 Configure your own storage target that meets your retention and residency requirements
- 3 Set up policies to define the backup frequency and retention of your choice
- 4 Recover your iManage Cloud library, workspaces, folders, and documents to your own cloud storage

Safeguard your most critical data with HYCU.
