

HYCU's Purpose Built-in GCP Backup compared to Bolt-On, Cloud-Washed Backup

Bolt-On	Built-in	Business Benefits of HYCU's Built-In Native GCP Solution
Separate Log-in Credentials, separate encryption, and compliance logs.	Integrated with GCP IAM, Google Managed-Key Encryption, and GCP Logs.	GCP IAM, translates all permissioning structures to users automatically, Managed-Key encryption and GCP logs satisfy even the most prudent auditors and Chief Security Officers.
Lengthy scoping & implementation project, often with professional fees.	Native UI and Snapshot Functionality, one-hour set up, no professional fees	HYCU never charges professional fees, and our native snapshots used to backup means that HYCU backups have zero impact on production applications.
Requiring weeks or months of your IT team	Giving back time to your IT Team	Get weeks or months back for your IT project team to focus on your strategic business initiatives.
Needs agents and a Virtual Appliance with a Max-Terabyte limit - increasing costs	Agent Free, API Integration to leverage the power and scalability of GCP	HYCU delivers: 1) Cost savings by not building a 'Virtual Appliance'; 2) Scalability and flexibility to spin up VMs and Apps one day, and to spin them down from GCP the next - without limitations.
Want to back up over your Virtual Appliance TB limit? You need to buy another costly Virtual Appliance.	Limitless TBs and Applications backup built-in to GCP's scale	Business Benefits: 1) Leverage the power and scale of the GCP Platform to backup and recover as much or as little TBs, VMs, and Applications as you want; 2) Cost Savings - no need to buy another costly Virtual Appliance if you go over its limit.
Up front software purchase of a perpetual license or minimum 12-month contract.	Integrated into GCP Billing as a Pay-as-you-Go Subscription service.	HYCU offers cost savings, flexibility, and Simplification. 1) Cost Savings - no upfront costs, simply pay as you go for Backup & Recovery service; 2) Flexibility - backup as much or as little as you want each month; 3) Simplification - HYCU is a line item on your GCP bill at the end of each month.
